

Check the Facts.

Not all Hospices are the Same.

Extensive Grief Support Services Matter.

While all hospice providers are required by Medicare to offer grief support services to the families and caregivers of patients, there are significant differences in the depth and scope of support provided. Comprehensive bereavement programs recognize that each person grieves differently, providing a range of support options tailored to individuals of all ages—both before and after a loss. Use this checklist to evaluate Unity's grief support services in comparison with those of other hospice providers. Choosing the right hospice can make a meaningful difference in your loved one's quality of life and in your own peace of mind.
